Part A: Pupil premium strategy plan

Statement of intent

Our aim is to use Pupil Premium funding to help us continue to achieve and sustain positive outcomes for our disadvantaged pupils. Whilst socio-economic disadvantage is not the primary challenge our pupils face due to their SEND, we have seen slight variations in outcomes for disadvantaged pupils across the school when compared to their peers, particularly in terms of:

- Academic attainment
- Social opportunity and community participation
- Family functioning

At the heart of our approach is high-quality teaching focussed on the areas that our disadvantaged pupils require most, targeted support based on robust diagnostic assessment of need, and helping pupils to access a broad and balanced curriculum.

Although our strategy is focused on the needs of disadvantaged pupils, it will benefit all pupils in our school where funding is spent on whole-school approaches, such as high-quality teaching. Implicit in the intended outcomes detailed below, is the intention that outcomes for non-disadvantaged pupils will be improved alongside progress for their disadvantaged peers.

We will also provide disadvantaged pupils with support to develop independence and social skills and continue to ensure that wider outcomes for our pupil population are enhanced.

Our strategy will be driven by the needs and strengths of each young person, based on formal and informal assessments. This will help us to ensure that we offer the relevant skills and experience each child requires to be prepared for adulthood.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils

Challenge	Detail of challenge
1	Observations and discussions, highlight that disadvantaged pupils generally have fewer opportunities to develop cultural capital outside of school.
2	Assessments, observations and discussions indicate that disadvantaged pupils often require additional support to develop personal skills, e.g. life skills and independent travel.
3	Assessments show that disadvantaged pupils make less progress in the area of PSHE . Whilst the barriers to learning and the difficulties disadvantaged pupils experience vary, overall academic progress tends to be lower for these pupils. PP pupils= 89.5% compared to non PP pupils= 93.1% (- difference of 3.6%)
4	Assessments show that disadvantaged pupils make less progress in the area of Geometry, measures and statistics . Whilst the barriers to learning and the difficulties disadvantaged pupils experience vary, overall academic progress tends to be lower compared to non-disadvantaged pupils. (PP pupils= 87.4% compared to non PP pupils= 94.3% (- difference of 6.9%)

Intended outcomes

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Sustained achievement of PIP targets relating to PSHE , or disadvantaged pupils	<p>Increased numbers of pupils independently travelling to school.</p> <p>Increased engagement in enrichment activities that promote personal and social skills.</p> <p>Reduction in behaviour incidents.</p> <p>Pupil interests are used to plan career opportunities and pathways that promote aspiration and independence.</p>
Sustained achievement of PIP targets relating to Geometry and measures for disadvantaged pupils.	Assessment of communication PIP targets shows continued parity in outcomes between disadvantaged pupils and their peers in our school by the end of our strategy in 2027/28.
Disadvantaged pupils have greater confidence and independence to help them engage more with the wider community and prepare for adulthood.	Through observations and discussions with pupils and their families. Annual Reviews, One Page Profiles, pupil and parent questionnaires and surveys and the setting of PfA Outcomes in KS3.
Disadvantaged pupils have access to a wider range of enriching curriculum experiences to help build experiences and cultural capital.	Through the provision of an enriching curriculum offer, further enhanced by a personal development offer which provides opportunities and experiences that are sequenced to build cultural capital

Activity in this academic year using the EEF tiered approach to pupil premium spending:

This details how we intend to spend our pupil premium **this academic year** to address the challenges listed above.

1. High Quality Teaching:

(To include ongoing CPD focused on embedding a newly revised knowledge based curriculum that responds to the particular needs of our pupils, ongoing phonics training and resourcing, and professional development that supports the implementation of evidence based approaches)

Budgeted cost: £10,000

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

Wembley Manor school was not a school in it's own right during 2023/24.

Service pupil premium funding (optional)

Measure	Details
How did you spend your service pupil premium allocation last academic year?	N/A
What was the impact of that spending on service pupil premium eligible pupils?	N/A

Further information

Additional activity

Our pupil premium strategy will be supplemented by additional activity that we are not funding using pupil premium. That will include:

- Working with an increasing number of charitable and community based organisations that will provide community enrichment activity such as horse-riding, skiing, swimming, sporting activity, yoga, dance music and horticultural experiences as well as careers opportunities
- Regular community access activities eg shopping, visiting libraries, galleries, museums, cafes, parks, local shops and businesses etc
- Close Liaison with external agencies that can help to support the mental health and well-being of pupils so that SEMH is supported fully (CAMHs, WEST, PBS Referrals and close working promotes positive outcomes for pupils who are additionally disadvantaged)

Planning, implementation and evaluation

In planning our pupil premium strategy, we used published reports, studies and research papers about effective use of Pupil Premium and the intersection between socio-economic disadvantage and SEND.

In addition to the pupil premium funded activity outlined above, we have put in place stronger expectations around areas of effective practice, notably feedback given the impact of this identified by the EEF Toolkit. We have also put a sharp focus on supporting teachers to develop their professional practice and train in specialist areas, allowing them to develop expertise and share them with other staff.
